

POP-UP BUOYS

Full Coastal Ocean Capability

Model DL-280

A Pop-Up Buoy with significant buoyancy and depth capability

- Self-Unspooling Design
- Depth capability of up to 200m
- Can use any acoustic release
- Adaptable for many shields and bottom mounts
- Line lengths to 280 m of 3/8" at 14,000 lb tensile

POP-UP BUOYS

BENEFITS

- Pop-up Buoy with buoyancy to lift long and heavy lines
- Rope spool can hold 280 metres of 3/8" spectra line
- Buoy can surface from 200 m even at 45⁰ line inclination
- Users can specify lesser rope lengths to reduce costs and spooling effort
- Larger diameter ropes can be accommodated
- Operators can utilize any acoustic release already in their inventory
- Spectra rope is almost neutrally buoyant so minimally effects buoyancy

SPECIFICATIONS

Model	DL-280
Dimensions (Length x Diameter)	119 cm x 36 cm (47" x 14")
Weight in Air (without rope)	6.4 kg (14 lbs)
Buoyancy (SW)	40 kg (88 lbs)
Depth Rating	200m
Material	ABS floats with 316 fittings.
Flotation	2 Viny floats 13.5"

Distributor:
